

SPIELWARENMESSE 2025 SHOW NEWS

Futaba T26SZ

The new T26SZ is positioned in between the highly desirable high-end T32MZ-WC that is loved by many competitors and the mid-range T161Z-Super. With its user-friendly interface, twin screens, silky-smooth hall effect non-contact gimbals, near like-for-like T32MZ feature set, elegant styling and latest FASSTest 26ch protocol, the T26SZ is highly likely to tick every box on your extensive wish list.

#FP05003225-3 - Including R7208SB receiver

#FP05003226-3 - Including R7214SB receiver

Futaba T6PV

The all new T6PV radio is placed between the T4PM-Plus and the top of the line T10PX radio. Compared to the T10PX it has a smaller full color display (no touch-screen) and a few less available channels (max 6). The T6PV has many features that are available on the T10PX though such as F-4G mode and "feeling" adjustments etc.

First deliveries of the T6PV are expected in March.

- F-4G (6 channels)
- T-FHSS & S-FHSS (4-channels)
- MINI-Z EVO, MINI-Z EVO2 & MINI-Z FHSS

#FP05003229-3 - Including R404SBS-E receiver (1/10 electric)

#FP05003230-3 - Including R404SBS receiver

Futaba T10PX Black Edition

The top-of-the line T10PX is now available in a new Black Edition!

- Carbon look case
- Aluminium steering wheel bracket
- Aluminium brake arm and more...

#FP05003231-3 (no receiver is included)

Futaba S-C401 - Car Servo

The new S-C401 is a general servo with metal gears and coreless motor made for 1/10 electric cars. S.Bus system and supports SR & UR modes.

- Size: 40x20x36.6mm • Weight: 54g
- @ 6.6V - Torque: 11.4kg/cm / Speed: 0.11s/60°
- @7.4V - Torque: 13.8kg/cm / Speed: 0.09s/60°

#FPS-C401

Futaba S-HC501 - Heli Servo

A new helicopter swash drive servo that uses a coreless motor (1.520/760uS compatible). S.Bus system and metal gears.

- Size: 40x20x36.6mm • Weight: 54g
- @ 6.6V - Torque: 12.5kg/cm / Speed: 0.10s/60°
- @7.4V - Torque: 13.8kg/cm / Speed: 0.09s/60°

#FPS-HC501

Futaba CGY770R - Heli Gyro & Receiver

CGY770R is a 3-axis gyro for helicopters that is equipped with a new system [UR mode] and has a receiver and governor integrated with a wireless tuning function. It has an integrated receiver, 3-axis gyro function, and governor function.

#FPCGY770R

#FPCGY770RGPB1 - with GPB-1 Programming Unit

Futaba S-A601 - Aircraft Servo

A powerful servo made for large scale aircrafts. Coreless motor, aluminium middle case & metal gears.

- Size: 40.5x21x37.2mm / Weight: 74g
- @ 6.6V - Torque: 38.8kg/cm / Speed: 0.12s/60°
- @7.4V - Torque: 41kg/cm / Speed: 0.11s/60°

#FPS-A601

TRAXXAS TRX-4M/MT Brushless System

The TRX-4M® Brushless Power System gives you up to 50% more speed and more crawling torque and precision than brushed power systems. Rip wheelies in your monster truck or navigate a technical crawling course in your custom High Trail™ rig. The new TRX-4M Brushless Power System gives you the best of both worlds!

- Brushless Power System for ALL TRX-4M Models!
- Field-Oriented Control (FOC) for superior low speed torque
- High-power 3350 Kv brushless outrunner motor
- Brushless ECM compatible with 2s TRX-4M iD® LiPo batteries
- Retains all standard ECM features including Pro Scale® lighting controls
- Integrated 3-channel receiver works with Traxxas TQ™ and TQi™ transmitters

#426250

TRAXXAS 2S 5200mAh 35C LiPo Hardcase

Designed for spec-class racing, this 7.4-volt 2-cell LiPo battery features a tough outer hard case to protect against crash damage and meets sanction race requirements. The enhanced 35C discharge rate provides extra punch for brushless systems to bring home the win.

- Size: 139x47x25mm

#422844R

TRAXXAS iD® Charging Port TRX-4M

For use with Traxxas TRX-4M LiPo batteries and EZ-Peak® iD Chargers - Cut Charging Time in Half!

- Charge 2821 batteries up to 2X faster than the TRX-4M included charger
- Access all the features of EZ-Peak iD Chargers including storage charge
- Allows compatibility with all
- EZ-Peak iD multi-chemistry chargers
- Check cell voltage and monitor charging in real-time with EZ-Peak Live chargers and the EZ-Peak Live app

#422821-PORT

Savox SW-2290SG - Monster Servo

A new powerful "Monster" waterproof brushless servo from Savox. Note that we don't distribute Savox in Germany!

- Size: 41x21x39.9mm / Weight: 81g
- @ 6V - Torque: 45kg/cm / Speed: 0.16s/60°
- @ 7.4V - Torque: 55kg/cm / Speed: 0.13s/60°

Traxxas Mini MAXX

Overbuilt and over-the-top, the all-new Mini Maxx® captures the engineering, unmatched power, and extreme durability that defines Traxxas Maxx® performance. Mini Maxx is the perfect, take-anywhere size, delivering 48+ kph brushless speed and legendary Maxx toughness that slides easily into a backpack.

#TRX107154-1

Traxxas Bigfoot 4x4 BL-2s

Traxxas brings back the glory days of monster truck racing with the new BIGFOOT® 4X4 equipped with BL-2s™ brushless power and Traxxas' toughest 4X4 driveline. BIGFOOT 4X4 comes outfitted with a clipless BIGFOOT No. 8 body and factory-installed Extreme Heavy Duty components to take the most brutal punishment in stride.

#TRX67134-4

Traxxas Jato 4x4 BL-2s

Jato® 4X4 delivers agility and toughness in a platform that is both fun and rewarding to drive. The low-CG chassis uses performance-optimized suspension geometry and optimal weight distribution to deliver quick turn-in and precise handling dynamics.

#TRX90154-4

Traxxas 4-TEC Drift

Traxxas 4-Tec® Drift delivers the ultimate experience in modern, smooth, drifting action. Advanced TSM® Drift technology makes 4-Tec Drift easy to master and endless fun on the track. Use the included Wireless Module to take advantage of three customizable and powerful drift modes in the Traxxas Link™ app for maximum control.

#TRX105237-4

Traxxas Jato 4x4 VXL-4s

Jato® 4X4 VXL rewrites the book on buggy performance with 96+ kph* speed and laser-focused precision. An ultra-low-CG chassis with optimal weight distribution allows Jato 4X4 to corner on rails with predictable handling at every turn. Outfitted with Traxxas' toughest Extreme HD components, Jato 4X4 is equipped to transform extreme 4s Velineon® horsepower into all-day fun.

#TRX90386-4

Traxxas Slash Mudboss

The Slash® Mudboss dirt oval racer is engineered to deliver competition-tuned track performance right out of the box. Slash's already legendary durability has been enhanced with new Extreme Heavy Duty suspension components and performance upgrades such as aluminum GTR shocks, Magnum 272R transmission, tough clipless body, and the fast and reliable BL-2s brushless power system.

#TRX104354-74

Traxxas TRX-4MT - Monster Trucks

Traxxas delivers solid-axle monster truck performance and durability to 1/18 scale fans with the new TRX-4MT™. A factory-installed Long Arm Lift Kit with eight shocks and large Terra Groove tires give TRX-4MT unrivaled capabilities and towering ground clearance. Available with highly detailed Ford® F-150® or Chevrolet® K10 bodies, TRX-4MT sets the standard for authentic monster truck performance in a convenient, take-anywhere size.

#TRX98044-1 - TRX-4MT Ford F150 Monster Truck

#TRX98064-1 - TRX-4MT Chevrolet K10 Monster Truck

Traxxas Maxx Slash 6s

Traxxas rocked the world 15 years ago with the release of the Slash, launching a short course revolution and a generation of enthusiasts that have propelled Slash to become the best-selling truck in RC. Now, Slash is going even bigger. We MAXxed the Power, Size, Durability, and Excitement!

#TRX102076-4

Traxxas Disruptor VXL-4s

The all-new 4s Disruptor® is the one boat that holds nothing back. Pin the throttle and Disruptor's deep-V hull launches hard on its way to 64+KPH on a single 4s LiPo battery. At 66cm long, Disruptor is perfectly sized to be quick and agile on small ponds and stable in open water. Disruptor is purpose-built by Traxxas for the wildest stunts and unlimited fun—all with self-righting security.

#TRX106064-4

Traxxas Tandem Axle Boat Trailer

#4210650 - Made for Disruptor

Traxxas Spartan SR VXL-6s

Spartan SR is built for speed and performance. Pull the trigger and Spartan SR immediately jumps on plane and rips across the water to its heart-pounding 80+ kph top speed! There's nothing else like it and nothing holding you back. If a wave pitches the wrong direction, self righting is on board and within seconds, Spartan SR is back to extreme, full-throttle fun.

#TRX103076-4

Traxxas Tripple Axle Boat Trailer

#4210350 - Made for Spartan & DCB M41

Sunpadow - 2S 7300mAh Hardcase XT60

This is a 2S LiPo hard-case battery suitable for most RC car applications when you need a powerful battery with XT60 connector!

- Battery; 2S, 7.4V, 2S2P LiPo
- Capacity: 7300mAh
- C-Rating: 110
- Size: 138 x 47 x 25mm

#SW256402

Hobbynox - Paint Dummies (30-pack)

This is our mini test bodies for painters. Hobbynox now has miniature test bodies perfect for practicing with our Hobbynox paints and testing new and innovative techniques to bring your paint skills to the next level. If you are a serious painter or want to improve your skills, then our Hobbynox Paint Sample Bodies are for you!

- Mini test bodies for paint practice with Hobbynox paints
- Great for displaying paint color options
- Thermo formed PET plastics
- Available in 30pcs/pack of clear, white & black

#HN3600 - Transparent (30pcs)

#HN3601 - White (30pcs)

#HN3602 - Black (30pcs)

Sunpadow - 2S 6100mAh Softcase XT60

This is a 2S LiPo battery suitable for most RC car applications when you need a powerful battery with XT60 connector!

- Battery; 2S, 7.4V, 2S1P LiPo • Capacity: 6100mAh • C-Rating: 100
- Size: 134 x 44 x 21mm

#SW256413

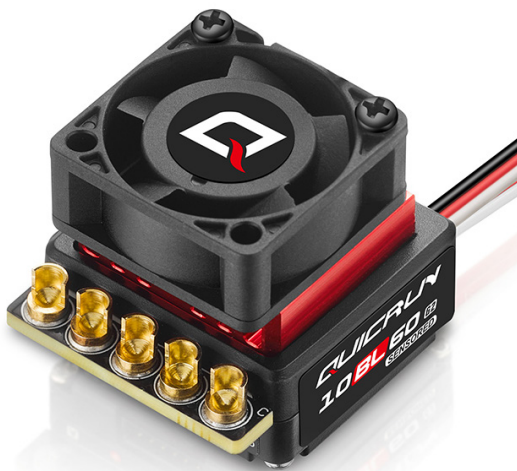

Hobbying QuicRun Fusion 8IGHT 2300kv

This is a 2300kv brushless sensored motor with a built-in 80A ESC. The Fusion 8IGHT is perfect for larger 1/8 scale crawlers!

- Rec: battery: 2-4S LiPo (6-12cell NiMH)
- ESC: 80A
- Motor kv: 2300
- Diameter: 42mm / Length: 69mm

#HW30120404

Hobbying QuicRun 10BL60 G2 Sensored

Crafted for entry-level and intermediate builders, this ESC stands out with its exceptional quality and user-friendly design. It eliminates the complex setup, allowing users to jump right into action without the need for complicated tuning or trouble shooting.

- Recommended Vehicles: 1/10 Touring, Buggy, Drift, 1/12 & 1/14
- Recommended motors: QuicRun 3650 SD G2

#HW30108001

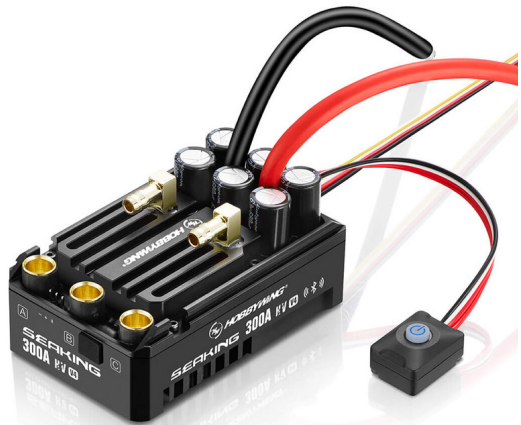

Hobbying XeRun XR14 Sensored ESC

Built for Competition. An all-round competition-grade ESC, meticulously designed with advanced software to deliver peak performance for both 1/14 on-road and off-road vehicles.

- Suitable for 1/14 Scale Racing • Also suitable for 1/12 & 1/10 Light load vehicles with zero-timing (blinkly) mode.
- Recommended motors: XeRun 2848

#HW30112622

Hobbying SeaKing 300A HV V4 Marine

14S High Voltage, High Power marine ESC with High Reliability and Durability.

- Delivers a continuous current of up to 200A
- Supports 5-14S LiPo

#HW30301201

Hobbying SeaKing 200A HV V4 Marine

14S High Voltage, High Power marine ESC with High Reliability and Durability.

- Delivers a continuous current of up to 200A
- Supports 5-14S LiPo

#HW30301201

Hobbying XeRun XR10 Pro G3/G3-X

The latest pro-racing 2S 1/10 Buggy/Touring ESC is available in two versions:

- Black G3: when a smoother power delivery is wanted (Modified)
- Grey G3-X: when a more aggressive power delivery is wanted (Stock)

#HW30112619 - XR10 Pro Black G3

#HW30112620 - XR10 Pro Grey G3-X

VAPEX^{TECH}

LIPO SAFE BAGS

Vapex - LiPo Safe Bags

We have a complete assortment of LiPo Safe bags from Vapex!

- #VPLI0BAGA - 175 x 225mm
- #VPLI0BAGB - 230 x 295mm
- #VPLI0BAGC - 185 x 75 x 60mm
- #VPLI0BAGD - 125 x 64 x 50mm
- #VPLI0BAGE - 260 x 130 x 150mm

Vapex - 4S 2200mAh 30C

The 4s 2200mAh LiPo battery is available with 3 different plugs.
4S 11.1V LiPo • Size: 105 x 33.5 x 30.7mm • Weight: 222g

- #VPLP022FD - With T-Connector
- #VPLP022FXT - With XT60 Connector
- #VPLP022EC3 - With EC3 Connector

Vapex - AA/AAA Alkaline Batteries

Vapex PLUS Alkaline battery is especially formulated to meet the increasing demands of today's new generation of high power devices such as: Remote Controlled Toys, Audio and other portable devices.

- #VPLUS4AA - AA (4-pack)
- #VPLUS4AAA - AAA (4-pack)

Vapex - 2S 3300mAh TX LiPo

A 2s 3300mAh LiPo battery that fits Futaba FX-series of transmitters.

- 2S 7.4V LiPo
- Power Connector: Futaba
- Balance Connector: JST-XH
- Also suitable as a receiver battery

#VP99659

Vapex - 2S 2200mAh TX LiPo

A 2s 2200mAh LiPo battery that fits most Futaba transmitters such as T10PX, T6PV, T4PM, T10J, T12K, T145G, T18SZ & more.

- 2S 7.4V LiPo
- Power Connector: Futaba
- Balance Connector: JST-XH
- Also suitable as a receiver battery

#VP99635

Vapex - LiPo & LiFe Balance Charger

A new easy to use and economical 240VAC balance charger for 1-3S LiPo or 1-3s LiFe batteries with XH balance connectors.

- Batteries: 1-3S LiPo or LiFe
- Charging Current: Max 600mA
- Battery Connector: JST-XH
- Perfect for Transmitter & Receiver batteries

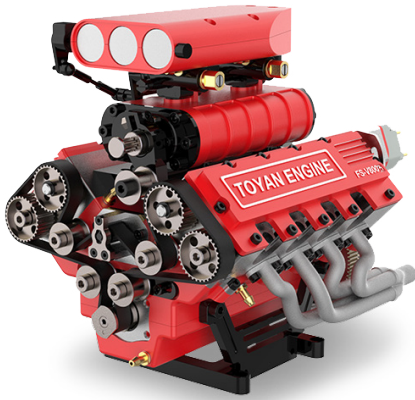

#VPVTE600

#TE400LBG - 4-Cyl Straight 4-Stroke 14cc

#TE200LAC - 2-Cyl Straight 4-Stroke 7cc

#TE100SAT-XP - 1-Cyl 4-Stroke 3.5cc - Pre-Built

Bittydesign - Falcon-X Body made for Traxxas UDR

An extraordinary body developed by Bittydesign in Italy for the TRAXXAS UDR model, with the main intention of offering a different shape and details than the stock body!

#BDTRX7-FLCK - Pre-Cut & Clear

#BDTRX7-FLCK-PPG - Pre-Cut & Painted Green

#BDTRX7-FLCK-PPR - Pre-Cut & Painted Red

#BDTRX7-FLCK-DC - Clear Interior

Bittydesign - P-GT3 1/10 & 1/12 Body

The new P-GT3 racing body is designed with the desire to offer an extremely realistic GT body style. It's available in two sizes:

#BDGT12-PGT3R - 1/12 - 171.5mm - GT12 Class

#BDGT-190PGT3R - 1/10 - 190mm

Bittydesign - Skoda Fabia RS Rally 190mm

The new Fabia RS Rally2 is made for your 1/10 rally model RC car. The body fits any model that is 190mm wide and has a wheelbase of 258mm.

#BDRX-190FRS2H - 1.2mm thick

SkyRC - BD380 40A Discharger/Analyzer

Unlock the beastly power of your batteries with SkyRC BD380. This unit autonomously initiates discharging immediately upon connection, removing the need for external power. In synergy with the D200neo and T1000 chargers, it enhances high-current discharging and charging, boosting battery burst capabilities!

#SK600153

SkyRC - Magnetic Micro RX Switch

An new upcoming receiver battery micro on-off magnetic activated switch from SkyRC! What we know at this early time it is a lightweight version with a heat-shrink tube covering the electronics (as in the sample picture). The on-off function is activated by a small magnet that is moved over the unit (included). More info to come at a later time.

#SK600155-01

SkyRC - CGG-020 Center-of-Gravity Gauge

App control real-time display via Bluetooth • Suitable for fixed-wing aircrafts • 3.7V rechargeable Lithium battery • Maximum load per module: 20KG • 0.1g accuracy. Bluetooth App!

#SK600153

SkyRC - S100neo - 100W/240VAC

Building on the renowned legacy of the SkyRC e680, S100neo showcases an impressive AC 100W/DC 200W power capacity, blending versatility with powerful charging capabilities. The vibrant Color LCD screen enhances the user experience with intuitive navigation and easy monitoring. S100neo is more than just a charger; it also doubles as an advanced Digital Power Supply, offering precise and efficient charging with unparalleled accuracy in both Constant Current (CC) and Constant Voltage (CV) modes.

#SK100202-01

SkyRC - NC1600 - AA/AAA NiMH Charger

SkyRC NC1600 charger is capable of charging, discharging and refreshing AA/AAA NiMH/NiCD batteries at a faster speed with the smart and high-accuracy chip. It's safe, reliable and energy-saving. The charger has three working modes: charge, discharge and refresh. Equipped with a LCD screen, various battery parameters and real-time data are all at a glance!

#SK100191

M-Drive - P1 Electric Screwdriver

This electric powered cordless screwdriver tool is made for wrenching on your radio controlled vehicle or other hobby/model projects. The power tool is equipped with a 3.6V Li-ion battery with a capacity of 1.3Ah that will give you hours of wrenching time.

#MD00001

XPARKLE RSV01 Smart RV Leveling Navigator

Made by SkyRC, this is a Recreational Vehicle Bluetooth tool that makes it easier to level-out your caravan, camper-van or mobile-home.

#XP990008-01

XPARKLE PBOX - Drag Performance Analyzer

Made by SkyRC, this is a bluetooth performance drag/speed/acceleration tool for your full-scale real car, motorcycle or snowmobile etc.

#XP990006-01

XPARKLE - Airsoft BB Flash Tracer

SkyRC Flash Tracer uses an ultra-bright and ultra-illuminated flashlight LEDs to light up the tracer BBs and draw a glowing trajectory, adding fun to the game. The built-in rechargeable LiPo battery allows you to enjoy the night shooting of up to 30,000 rounds!.

#SK500038-01

M-Drive - Glow Starter for Sub-C Battery

This is a traditional hand-held glow starter with an analog meter so you can check if the plug is working.

• Does not include the 1-cell NiMH sub-c battery

#MD70200

Vapex - Sub-C NiMH 4000mAh Battery

This is a 1-cell sub-c sized NiMH cell without soldering tabs that fits the M-Drive glow starter.

#VP4000SC

M-Drive - Universal Shock Tool

This is a practical and universal tool for wrenching on your RC car shocks. It has allocations for 3, 3.5 & 4mm diameter shock shafts and two different shock bodies (don't apply too much force when pinching shock bodies). Use it also for pivot ball assembly/removal (4.5/2.5mm pin).

#MD50500

Saito - FG-41X

The new Saito FG-41X engine is the direct replacement for the FG-40. (The FG-40 is discontinued outside of Japan.) This is Saito's first single-cylinder engine that includes a standoff engine mount that is integrated with the rear cover.

- Displacement: 41.2cc
- Bore: 40mm • Stroke: 32.8mm
- Weight: 1340g

#SAFG-41X

Black Horse - Ryan STA 120 V2 ARF

V2 version of the Ryan STA 20-30cc Gas ARF airplane. The O.S. GT22 gas engine is the perfect power choice!

- Spanwidth: 235cm • Length: 173cm
- Weight: 6-6.4kg • 20-30cc Gas Engine

#BH72A

Seagull - Oracle Turbo Haven ARF

New aerobatic model from Seagull. Suitable for a 15-20cc gasoline engine or an electric conversion.

- Spanwidth: 160cm • Length: 134cm
- Weight: 4kg • 15-20cc Gas Engine

#SEA404

Seagull - Giant Thunder Stick ARF

Huge 245cm wingspan Aerobatic Sport flying and can even hover for the Giant Thunder Stick 55-65cc. High quality balsa and balsa plywood, these make light weight construction and carbon fiber structure provides a lightweight airframe that is ridged and strong in all the right places.

- Spanwidth: 245cm • Length: 204cm
- Weight: 8.2kg • 55-65cc Gas Engine

#SEA405

O.S.Engine FS-64V Engine

By increasing the stroke, not only propellers of 12x7-8 and 13x6 sizes, but also propellers with large loads (13x7-8 & 14x6) can be used without any loss of power. A newly designed cylinder head is adopted along with the increased displacement. The internal capacity of the combustion chamber has also been expanded to achieve more realistic 4-stroke exhaust sound and more power.

• Displacement: 10.46cc

#0S18642

O.S.Speed 91HZ-R 3D Helicopter Engine

In recent years, nitro helis has regained popularity in the overseas 3D scene in search of powerful exhaust smoke and engine sounds that touch the five senses, and new models are appearing one after another from overseas 3D helicopter manufacturers. We have received many requests to resell the O.S.SPEED 91HZ-R3D in order to provide a satisfactory power supply for 3D flights, which are becoming more and more extreme due to improved performance of helicopters. This model has been tuned to match the output characteristics of 3D flight, including improvements to the engine head structure and exhaust port structure, as well as crankshaft balancing and a review of the cover plate shape.

• Displacement: 14.95cc

#0S18642

O.S.Engine Max-B21 Off-Road Engine

Made for 1/8 nitro Offroad and 1/8GT the latest MAX-B21 is easy to use from entry-level users to sports users and has excellent cost performance. Based on the O.S.SPEED B2104 series engine, it has a well-balanced combination of smooth speed and power delivery and can be used in both on and off-road racing situations.

#0S1EG00 - Engine only

#0S1EG01 - Combo set including exhaust system

O.S.Speed B2105 Ongaro WC V3 Engine

Davide Ongaro has won his third 1/8 Buggy World Championship in a row! The new B2105 Ongaro edition is expected early February 2025!

- Dual color head anodizing and unique laser engravement
- Gold plated 6.5mm venturi
- "World Champion" engraved exhaust system

#0S1EK02

O.S.Speed R21-M06 Marine Racing Engine

This is our latest specification R21-M06 Minicars Edition marine engine for the 2025 boat season.

- New crankshaft with more timing
- Ceramic rear bearing
- New stronger "R" conrod
- Updated piston & liner
- New head & case graphics

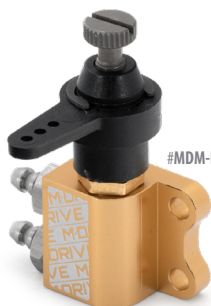

#OS0R21M06
