Uplon® Fuel Lube

Klotz Uplon Fuel Lube provides upper cylinder and fuel pump lubrication. Protects the induction and fuel delivery systems from dry, abrasive properties of methanol alcohol. Uplon Fuel Lube increases horsepower by reducing power robbing friction. Seal conditioners maintain constant fuel pressure and prevent lean-out conditions. Blends with gasoline, E-85, methanol alcohol and nitro-methane. Klotz Uplon will challenge and outrun the competition in the following

- **Eliminates need to purge fuel system**
- **Formula contains identifying Klotz Red with traditional racy scent**
- **Reduces maintenance by keeping fuel injectors clean and corrosion free**
- **Anti-wear chemistry reduces valve and valve guide wear**
- **Lubricates, seals and extends fuel pump life**
- **Stabilizes fuel pump pressure for consistent performance**
- **Eliminates damaging lean-out conditions caused by heat saturation**
- **Protects entire fuel system against rust, corrosion and residue build-up**
